Anne,

FCC sent us your EL application. We've reviewed and will send note back to FCC recommending approval to use Band 14 frequencies with same standard not-to-interfere conditions.

Regards,

Pete

Anne,

Just awaiting feedback from AT&T. I'll prompt them tomorrow.

Regards,

Pete

Hello Mr. Tomczak,

I wish you a happy new year.

Have you, perchance, had the opportunity to look over the coordination request that I am forwarding here? The holiday season gets busy, and this may not have been at the top of your list. The FCC is pushing to clear the application, so I hope you will not mind my touching base.

If there is anything you need from us for further review, please let me know.

Thanks very much,

Anne Cortez, Esq.

On behalf of Raytheon Company Missiles and Defense - M

Subject: Coordination with FirstNet for WF2XLH
Importance: High

Hi Mr. Tomczak,

I am writing on behalf of my client Raytheon Company (Missiles & Defense - M). Raytheon has a pending application at the FCC for operations of its antenna test range in Tucson, AZ. This facility has been operational for years, and we are in the process of renewing the license. The FCC asked us to coordinate with FirstNet with regard to the operations of the range. To get the process started, I am attaching a coordination request letter (see attached), a copy of an earlier license granted by the FCC which gives the location and technical parameters of the range operations, and finally a copy of the exhibit that we submitted with the currently pending application.

When you have had a chance to review these materials, please let me know if you have any concerns about the operations of this antenna test range, or if you will give us the coordination consent. We have written to you and worked with you on this in the past, so it may be a bit familiar. Anyhow, if you have any questions, please let me know.

We appreciate your help through this process.

Best regards,

Anne E. Cortez, Esq.

On behalf of Raytheon Company (M&D - M)
