CLASSIFICATION: UNCLASSIFIED

Anne;

Early this week Randy requested my coordination for the MAG assignment, and I concurred with it.

Thanks Anne.

Mark

Hi Mark and Randy,

Raytheon Missile Systems filed experimental license application 0128-EX-CN-2017 last week. The purpose of the application is to extend testing of its Coyote UAS near Florence, Arizona. This testing started as a Special Temporary Authorization, WK9XHB, which we coordinated with you last fall. A copy of WK9XHB is attached, for your convenience,

because the proposed operations are exactly the same as those authorized under the temporary authorization. I have also attached a copy of the exhibit that we submitted with the application to provide you with additional information about the ongoing operations.

Two weeks ago, I spoke with Mark about this application prior to filing it last week.

The FCC has requested that we undertake prior coordination with the MAG. Because I know that you both work together, I am writing to both of you rather than just the MAG.

Please let me know if you have any questions or if there is any additional information that would be of use to you.

Thank you very much for your assistance in this process.

Best regards,

Anne

Anne E. Cortez, Esq.
