This email is your AFTRCC coordination.

This coordination includes this header information, DOD Area Frequency Coordinator comments and AFTRCC comments. These messages must not be separated.

This coordination is advisory only and not binding on the FCC. Applicants are advised that this

coordination does not constitute a judgment that the frequency(ies) is best suited for the applicant's purpose nor that the frequency(ies) is exclusive to the applicant. Flight Test frequencies are shared and may require scheduling with other users.

In return for AFTRCC's processing of the applicant's coordination request, the applicant agrees to release and hold harmless AFTRCC, its officers, directors, agents, members, and representatives from any claims, losses or expenses that may arise from the use of the frequency.

This coordination is not an authorization to transmit. A copy of this coordination must accompany application to the FCC.

AFTRCC comments: non interference basis to Flight Test telemetry.

Test performance of UAS device. UAS will be sip board and transit from Port of Philadelphia sailing down Delaware River and Delaware Bay to open waters. Actual demonstration(s) will occur 45 miles off the coast of NC. Request is to seek coordination for intermittent equipment testing while vessel is transiting departure point for open waters.

Please reply via return email as to concurrence, non concurrence and any additional remarks or conditions.
