Subject: FCC File No. 0107-EX-ML-2016

Message:

The modification for file number: 0107-EX-ML-2016 is to:

1: Change power from 1 W ERP to 5 W ERP

2: Eliminate 880 – 894 MHz in-order-to comply with Verizon Wireless who will not consent with the use of this band.

Note: Raytheon still require the use of 894 - 940 MHz at all locations. At 30 MHz bandwidth the two center frequencies is 910 MHz and 924 MHz.
