Message:

1. Out of these 3 locations, which antenna is airborne (onboard of aircraft)?

McKinney: Ant Gain: 47.4 dBi: MSL: 192m, AGL: 309m
No Airbourne Platform

Burn Flat: Ant Gain: 48.4 dBi: MSL 578 m, AGL 236m

17.5-SATCOM directional antenna

Greenville: Ant Gain: 32.6 dB: MSL 165, AGL 61m

17.5-SATCOM directional antenna

2. Are the ground-station antenna height for McKinney and Burn Flat are 309 and 236 meters?

Burn Flat: AGL: 236m
McKinney: AGL: 309m

3. This is the same antenna height as your other location in Will Rogers Airport.
Will Rogers Airport: AGL: 393.192m
