

From: Clarence Banks

To: Behnam Ghaffari

Date: December 17, 2015

Subject: FCC File No. 0790-EX-PL-2015

---

Message:

Purpose of the license is to conduct ground and airborne testing for design verification of the radar which will help us ensure proof of concept for new and updated radar modes.

Stop Buzzer: Carlos Martinez ? 956?970?2373

Flight Level: No more than 15k ft.

Note: We are requesting the approval of a frequency band but it is vital to our testing that 9.6 MHz be a part of that approval
