Application Narrative for Proposed Equipment

Proposed Program

Raytheon is proposing GPS within their laboratory for testing purposes.

Objectives

We seek to accomplish the following objectives:

1. Illumination of the part of the laboratory facility, located at 2859 Defense Blvd, BLDG 400 Joint Base Anacostia, Bolling, DC with a GPS signal to allow for the testing and experimentation indoors for continued exploration of utilizing GPS technologies within their GPS receivers and enhancement of existing GPS applications to provide greater efficiency and more effective means of utilizing GPS derived information.
2. Further design, development and enhancement of existing GPS applications to provide greater efficiency and more effective means of utilizing GPS derived information.
