Message:

Sorry for the delay in responding.

Below is the AFTRCC coordination for the frequency band 2360.0 MHz - 2390.0 MHz via email. In the original request/application 2345-2390 MHz was requested, 2345 to 2359.9 is not cleared in the AFTRCC coordination. Do I need to amend the FCC application in addition to this correspondence? Or will this correspondence do?

Thanks you for your help,

This email is your AFTRCC coordination.

This coordination includes this header information, DOD Area Frequency Coordinator comments and AFTRCC comments. These messages must not be separated.

This coordination is advisory only and not binding on the FCC. Applicants are advised that this coordination does not constitute a judgment that the frequency(ies) is best suited for the applicant's purpose nor that the frequency(ies) is exclusive to the applicant. Flight Test frequencies are shared and may require scheduling with other users.

In return for AFTRCC's processing of the applicant's coordination request, the applicant agrees to release and hold harmless AFTRCC, its officers, directors, agents, members, and representatives from any claims, losses, or expenses that may arise from the use of the frequency.

This coordination is not an authorization to transmit. A copy of this coordination must accompany application to the FCC.
