Subject: FAA Concurrence of Record TRK 190941

Dear Proponent,

Your Frequency Coordination Request has been engineered by FAA Spectrum Engineering. TRK 190941 is assigned an FAA Coordination number NG T190999 which indicates FAA's concurrence. Please note that this does not constitute authority to transmit.

A formal application must be filed with the FCC, that includes reference to the above FAA Coordination number which is valid until 5/31/2020. If an extension is desired, please submit an inquiry via WebFCR for an extension. Your authority to transmit accordingly must be obtained from the FCC. FAA Spectrum has provided the following comment:

FAU Line: PER FAA RESPONSE TO STA 2054-EX-ST-2019, NOTCH OUT 5030-5091 MHZ.

The attached file contains a Summary Table of the key record parameters documented throughout the process. The following Revision Table outlines the attributes which were revised:

| Attribute | Revised Value |
|-----------|---------------|
| Frequency | M5000.0000 |

Thank You

FAA Spectrum Engineering
