Subject: 0578-EX-ST-2020 pre-coordination data request

---

Message:

The correspondence indicates that I must have prior coordination with the AFTRCC for the frequencies 2.309 GHz-2.329 GHz, however the AFTRCC form for Experimental/STA systems requires coordination only for 2.36-2.395 GHz. Is there another AFTRCC coordination form I should be using? Thanks!
