Message:

Hello Mr Behnam,

Here answers to your questions:

1. Please submit the application fee.

I couldn't pay the fee in the first place because I couldn't assign a FRN. Now I don't know how to come back to the point where I can pay. Sorry. Can you please send me a link where to pay the fee. Thank you.

2. Please submit a detailed exhibit that describes your request.

Our customer wants to use 4 identical Bosch Mid Range Radar (MRR1crn) for a test fleet of highly automated driving (HAD) vehicles. They want to collect data with that fleet to develop there HAD algorithm. The radars are installed in the corner of the car behind the fascia. It is used to sense the environment. There for it transmits 77GHz radar waves receives them and evaluates the distance, velocity, strength and angle of the reflex.

3. Is the equipment experimental? Please provide manufacturer and model number.

No this is a commercial Radar Sensor similar to the module FCC-id: NF3-MRR1rear. Name will be MRR1crnCR, part number 0265B60920-01. Manufacturer is Robert Bosch GmbH, Germany.

4. The number of units (650) is too high. Can this be lowered to 50 units?

Our customer installs 4 sensors per vehicle, I don't know exactly how many vehicles they put into the field.

In addition to the points above, I started a new application by accident. Can you please delete this application:

STA Confirmation Number: EL649387

STA File Number: 0400-EX-ST-2017

Date of Submission: March 30, 2017

Thank you.

If you need more information don't hesitate to contact me again.

Best regards
Raphael Hellinger
