---

Message:

Good afternoon Mr. Ghaffari,

The application delineates a public park area owned by Monroe County.

Because I didn't see how to define multiple test areas, I did include two additional sites in the attached documentation notes for the application. The other site in New York State is owned by Cornell University, and the other site in Virginia is owned by the Nature Conservancy.

Please advise if you need any additional information.

Thanks for your assistance!

Don McKeown
