Subject: RE: experimental license application

Carl, *AMENDMENT 951102*

I am responding to your questions on behalf of Paul Jacobs in regards to the experimental license application at RIT.

The following is the contact information for the Program Manager at ONR responsible for our work:

Dr. Paul Rispin
Department of the Navy
Office of Naval Research
800 North Quincey Street
Arlington, VA 22217-5660

Tel. (703)696-0339
Fax (703)696-4884

In regards to the phone numbers that are not in service:
The Rochester, NY area is currently undergoing a transition from the (716) area code to (585). Evidently there are problems with some phone numbers not working under the new area code during the switchover period. I expect this is what you encountered. For any number that you experience trouble with, substituting the old (716) area code should resolve the problem.

Please feel free to contact me if you have any further questions.

Regards,
Jeff Heintz

Rochester Institute of Technology
National Center for Remanufacturing & Resource Recovery
113 Lomb Memorial Dr.
Rochester, NY 14623-5608
phone (716)475-6359 | fax (716)475-6090

Subject: experiimental license application

Need the contact at Ofc of Naval Research (name and telephone number). Also, the phone numbers (585) 475-xxxx all are "no longer in service."

cc: *Paul Jacobs*
