## **Application Narrative for Proposed Equipment**

### **Proposed Program**

Rochester Precision Optics is proposing GPS within their laboratory building for testing purposes.

### **Objectives**

We seek to accomplish the following objectives:

1. Illumination of the part of the lab facility, located at 850 John Street, West Henrietta, NY with a GPS signal to allow for the testing and experimentation indoors for continued exploration of utilizing GPS technologies within their GPS receivers to provide innovative applications and continue to provide safe products.
2. Further design, development and enhancement of existing GPS applications to provide greater efficiency and more effective means of utilizing GPS derived information.
