

Exhibit 1

Public Interest Statement

By the instant application (“Application”), Commission consent is sought to the assignment of the license of Experimental Station WE2XGE (the “License”) from Rockwell Collins, Inc. to BAE Systems Information and Electronic Systems Integration Inc.

Commission consent to the assignment of the License is requested in connection with a transaction – expected to close on or around August 3, 2020 – between Rockwell Collins and BAE Systems pursuant to which BAE Systems will acquire Rockwell Collins’ Military Global Positioning System business, which includes the assets authorized under the License.

No other applications for prior Commission consent are being filed with other Bureaus. The Station WE2XGE License is the only Commission license being transferred in connection with this transaction.

As specified in the instant filing, the assignee BAE Systems Information and Electronic Systems Integration Inc. has the qualifications necessary to acquire the License and operate the facilities upon closing of the transaction.

For the foregoing reasons, it is respectfully submitted that grant of Commission consent to the assignment of the License is in the public interest, and Commission consent is requested prior to the anticipated August 3, 2020 closing date.
