

**Antenna Information**

The requested information for antenna directionality is as follows:

- (a) Width of beam in degrees at the half-power point: 14.3239° x 14.3239°
- (b) Orientation in horizontal plane (degrees from True North): N/A (antenna is electronically scanned)
- (c) Orientation in vertical plane (degrees from horizontal): N/A (antenna is electronically scanned)
