Subject: 0064-EX-ST-2020

---

Message:

Hello Behnam Ghaffari:

Your very prompt response (below) is sincerely appreciated by Rohde and Schwarz (R&S). The notice was requiring support for the Confidentiality assertion submitted by RSA in its application. After an internal review with management, it is decided to remove the request for confidentiality for the documents posted on the application.

In order to revise/update the R&S application to reflect that the documents are not consider confidential; is a formal update to the original application necessary, or can this message stand as an updated application?

File Number: 0064-EX-ST-2020

Correspondence Number 52860 Dated 1.14.2020

From: Behnam Ghaffari

Your support to R&S on this matter is greatly appreciated and it looks forward to the FCC response; and R&S genuinely apologizes for any confusion this issue has caused.

If there are other questions or issues that require R&S's attention; please do not hesitate to contact the undersigned.

Sincerely,

Robert Guseman
