Subject: 0064-EX-ST-2020

---

Message:

Applicant: Rohde & Schwarz USA, Inc.

File Number: 0064-EX-ST-2020

Response to FCC Correspondence #: 52889

In response to the #52889 message, the FCC is authorized to modify the Rohde and Schwarz (R&S) application 0064-EX-ST-2020 by removing the restriction of confidentially associated with the application attachments. There is no longer an assertion of confidentiality for the application and File number 0064-EX-ST-2020.

Also, a Question. R&S wants to conduct two ADDITIONAL EVALUATIONS on the QP-201 equipment within the same time frame tat two separate locations. Does R&S add the requests to the existing application or create an additional and separate application. Please advise

Please do not hesitate to contact me if there questions or comments.

As always your support and assistance is greatly appreciated.
