Subject: Request for Info - File # 0369-EX-CN-2020

---

Message:

Applicant: Rohde & Schwarz USA, Inc.

File Number: 0369-EX-CN-2020

Correspondence Reference Number: 55084

Date of Original Email: 05/05/2020

R&S Response:

The request for a license hereunder is associated with the QPS EasyWalk 2000 System, for permitting equipment application demonstrations to potential Customers of the technology and how it can be utilized to provide enhanced security screening capabilities by Customers and Partners.

An FCC authorization will allow Rohde and Schwarz to demonstrate to Government and Commercial Customers the ability to detect the threats such as harmful apparatus (guns, weapons, and explosives) as well as, for other screening purposes that lower risks and improve business efficiencies (fraud, waste and abuse).

The demonstrations will allow Customers and Partners to witness real time workings of the technology and to provide specific guidance to help inform R&S about product development to make improvements associated with specific applications. The demonstrations may also provide guidance to enhance product development to make improvements for alternative security applications.
