From: Ken Lashbrook, Associate Air Quality Specialist
Sacramento Metropolitan Air Quality Management District

Subject: Request Fee Exemption for Experimental Station WA2XAP

The Sacramento Metropolitan Air Quality Management District (SMAQMD) is a special district established to monitor and improve the air quality within the Sacramento County. It is governed by a 10 member board. The members are elected representatives from the County and the various city councils.

SMAQMD requests a fee exemption for the experimental station WA2XAP because it qualifies as a governmental entity as described in 47CFR1.1114f.
