Battleview Laboratory
Manassas, VA 20109***

General Lab Area

Plan to locate GPS receiver on roof above this area, bring cable in through exterior wall, and mount electronics on wall directly above assembly area.

Assembly/test area

Exterior wall

To machine shop and storage bay

to office area

Exterior Area

Back lot viewed from rear delivery door.

Planned location of antenna and wall penetration to internal lab area.

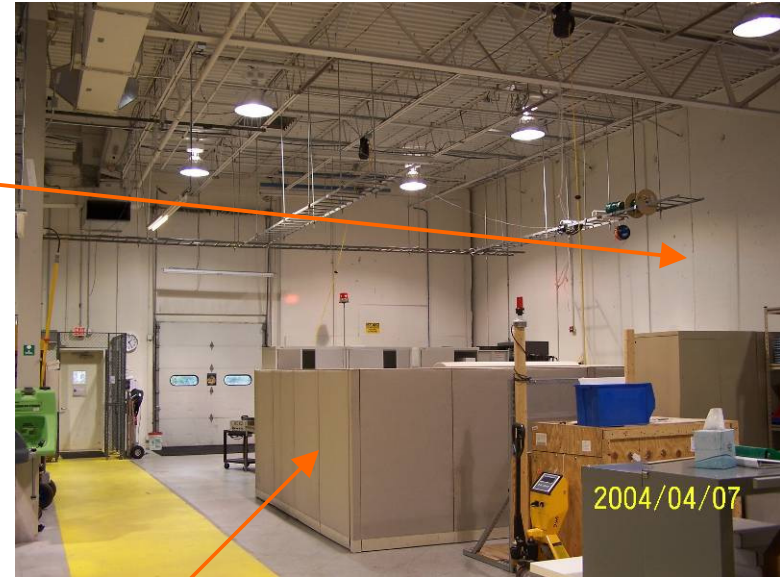

Rear delivery doors.

Rear of facility viewed from back lot.

Interior View - General Lab Area

Interior view looking towards rear of lab area. Roll-up door and entry way exit to rear delivery lot.

Planned location of exterior wall penetration for GPS cable connection to interior of facility

Engineer area enclosed in "cubicle style walls"

High Bay GPS Location
