Re: Samsung Electronics ("Samsung")
FCC 442 requesting Experimental License

Attached is FCC form 442 which requests an Experimental License for Samsung for their cellular dual channel telephones, with appropriate filing fees. Also attached is a letter request for an STA for immediate experimental use of equipment during the time in which the license is being processed.

There are immediate on-air tests scheduled within the next two weeks at the Samsung facilities in Texas at their communications briefing center.

It is requested that the STA be issued as soon as possible in order to meet this schedule on August 10, 2000. Thank you.

Sincerely yours,

Sincerely yours,

Radio & Tv Engineering Co.
