

QUESTION 4: STATEMENT REGARDING GOVERNMENT CONTRACT

This experimental license will be used in support of government contract W31P4Q-06-D-A004, Task Order TX04. The agency we are supporting is the Threat Systems Management Office, located at Redstone Arsenal, AL. The purpose of this task is to demonstrate the advantage of providing a small number of mobile users (2-12) with wireless data communications at a training range located near Townsend, GA. This wireless data system will allow these mobile users to operate without the previous restrictions of traveling to fixed, known locations to connect to a hard-wire network. The integration and initial testing of this system will be in Huntsville, AL, and when fielded, users will be limited to a 10 KM range from the basestation. The equipment selected for this task consist of a fixed basestation (FCC ID = PKTNODEBHZ1) and 2-12 mobile users (FCC ID = PKTP1DKF1). System integration and test will occur in Huntsville, AL and the demonstration/usage will occur near Townsend, GA.
