FCC File # 0111-EX-ST-2007

---

Message:

John, per our conversation with the customer, we will only be using 2300 - 2310 MHz and 2350 - 2360 MHz. As a result, we will only need clearance from Bell south for this range, since they are the WCS licensee. We are currently working with Bell South to obtain clearance. Can you grant the application with the condition that we have clearance with Bell south, we will have it.

With regard to the 2500 - 2620MHz band, we are coordinating with all BRS and EBS licensees in the Orlando area. Again, can you grant the application with the condition that we have clearance.

Let me know -

Your friend,

Rich Hibbeler
