Subject: Request for Info - File #0034-EX-CN-2016

---

Message:

On December 1, 2016, we received your communication with reference number 34867. In that communication, you requested SES Americom to provide an antenna pattern for the antennas operating in the 27.6-28.6 GHz (Earth-to-space) frequency band to validate if the limit in RR 22.5D will be met. SES Americom has requested the antenna patterns from the manufacturer, but due to the holiday season, we will not be able to provide them before December 31, 2016 as requested. We therefore request an extension of two weeks to provide the requested information.
