Washington, D.C. 20554

November 15, 2021

Attn: Celina Kawasima
SOO SYSTEMS RADIO COMMUNICATION CORPORATION
120 SOUTH 6TH STREET
MINNEAPOLIS, MN 055402

DISMISSED-WITHOUT PREJUDICE

Dear Celina Kawasima,

This refers to application, File No. 0494-EX-CN-2021, for an experimental authorization.

You are advised that the Commission is unable to grant your application for the facilities requested. The FCC received an inquiry for equipment authorization and it referenced the Experimental license for 0494-EX-CN-2021, WL2XXV. A review of that grant indicates that your operations do not conform to the NTIA 8.3.28 requirements and should not have been granted.

The NTIA requirements are intended to permit indoor testing of RNSS devices in facilities that are under the control of the applicant, see NTIA redbook section 8.3.28 a, e and h. You are seeking to test a system that simulates the RNSS signal. In addition, you are not testing indoors of a building nor have control of the location of the Milwaukee train station. These requirements were also listed on condition 4 of the license.

Accordingly, we are dismissing your license and you must cease any operation.

Responses to this correspondence must contain the Reference number : 65804

Sincerely,

Anthony Serafini
Chief
Experimental Licensing Branch
