Re: Southern California Edison Company; Experimental Radio Service; One FCC
Form 442 Seeking a New Experimental License

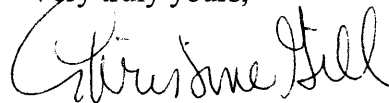

Dear Sir or Madam:

On behalf of our client, Southern California Edison Company ("SCE"), we have enclosed the above-referenced FCC Form 442 seeking a new experimental radio license. Specifically, this authorization would allow SCE to operate and test its flat array antennas in connection with its UltraNet™ system.

Accompanying this request is a completed FCC Form 159 and a check made payable to the FCC in the amount of \$45.00 to cover the requisite filing fees. We ask that the Commission date-stamp the additional copy of this letter and return it to our office in the self-addressed, stamped envelope included with this filing.

We trust that you will find this request to be in order for filing and grant. Should any questions arise during the processing of this application, however, we ask that you please communicate directly with the undersigned.

Very truly yours,

Christine M. Gill
