ED.xls (82 KB...

Carl,

We thank you for the list of alternative frequencies. They are all acceptable.

Please note tabs 1 and 2 at the bottom of the attached Excel document.

In the attachment, we have added a column on the left side and entered the alternative frequencies you suggested. It is not clear if the other frequencies in our list are acceptable, or if they must be deleted in favor of your list. We also note that you added 36, 38 and 41 MHz. This is very good as the more granularity we have the better.

Best regards,  
LaVarre Bushman

Carl,

Thanks for your input.

My point man for this action has been with customers all week. I will review your suggestions with him either later today or first thing Monday.

Best regards,

LaVarre
