

FCC Application for Experimental License

File Number: 0012-EX-ML-2015

Exhibit 1: Information on Experiment

Purpose of Experiment

SRC respectfully requests to the Federal Communications Commission to grant us an Experimental License for the operation of one SRC-1494 V3 Radar at Stockbridge NY. The purpose of our request is to test and evaluate radar performance. SRC's operation has been pre-coordinated by the FAA. We wish to add the additional location and frequencies coordinated to our existing license grant for Call Sign: WF2XPL.

The period of time SRC will be requesting our Experimental STA is one year; over the period of March 15, 2015 through October 01, 2016.

Operating Location

The SRC-1494 V3 radar will be operated from a tripod 7 ft. above ground at a fixed location within the radius of operation. The coordinates SRC will use are:

Location	Latitude	Longitude	Elevation (Above mean Sea Level)	Radius of Operation
Stockbridge, NY	43°01' 56"N	75° 39' 00"W	1261 ft.	1 km

Operating Schedule

SRC will operate the SRC Experimental Transmitter on the following schedule over the period of the Experimental License grant:

Schedule	Operations
Hours per day	Intermittently up to 24 hours per day

Cease Buzzer for Experiment

SRC understands that operation will be on a secondary non-interference basis. In the event interference complaints were to occur, SRC has taken preventative measures to cease and desist from transmission until they can be resolved. SRC has established a Cease Buzzer point of contact to quickly react with any interference complaints that are the result of our system. The point of contact for the SRC Cease Buzzer is:

Point of Contact	Telephone Number
Cease Buzzer (Primary)	(315)-452-8114
