Subject: 0451-EX-CN-2021 pre-coordination data request

Message:

As per the Commissions Inquiry from May 27, 2021 for File 0451-EX-CN-2021 requiring pre-coordination for our original band of operation. SRC has changed the operating frequency for FCC File 0451-EX-CN-2021 to 9.25-10.0 GHz which is outside of the FAA Bands. Therefore, no pre-coordination will be required in this band.

Thank you,
Anthony Cimo
SRC Spectrum Manager
