From: Doug Young Date: May 13, 2013

Subject: Request for Info - File #0337-EX-PL-2013

Message:

In addition to the MAG coordination and the FAA Western Regional frequency coordination requested in a previous email, your application also requires coordination of the band 328.6-335.4 MHz with another FAA Regional Frequency Management Office using the procedures below.

The Federal Aviation Administration (FAA) Great Lakes Regional Frequency Management Offices should be contacted at:

Federal Aviation Administration
Frequency Management Officer
AGL-474
O'Hare Lake Office Center
2300 East Devon Avenue
Des Plaines, Illinois 60018
Telephone: (847) 294-8443 Fax: (847) 294-7133

Please report the following information to the FAA Regional Frequency Management Office. Write "None" for a parameter if it is considered not applicable to the experiment:

- type of antenna;
- transmit antenna gain;
- elevation above sea level of the antenna site;
- height above ground of the focal point of the antenna;
- antenna polarization;
- the azimuth that the antenna is pointed or appropriate designator to indicate whether the antenna is rotating, non-directional, etc.:
- equipment nomenclatures;
- radius of operations if appropriate;
- detailed description of the proposed operation to include any technical parameters that will be altered during operations.

Report back to this office when coordination with the regional office has been completed, and report any "NG T" numbers assigned by the regional office.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of May 13, 2013 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
