DISMISSED-WITHOUT PREJUDICE

Dear Ryan Peterson,

This refers to application, File No. 1319-EX-ST-2017, for an experimental authorization.

You are advised that the Commission is unable to grant your application for the facilities requested. NTIA objected due to interference potential with weather radar along the intended path. It is highly recommended that SRI International pre-coordinate with FAA prior to future submissions. The FAA may consider an alternative with proper pre-coordination and analysis.

Responses to this correspondence must contain the Reference number : 39641
