Dear John Marziale,

This refers to application, File No. 0019-EX-ML-2014, for an experimental authorization.

You are advised that the Commission is unable to grant your application for the facilities requested. The FAA believes that the UPX-37 system has been already integrated into littoral combat ship (LCS) operating with sea giraffe radar. Therefore, further testing is not necessary. Provide a justification if further testing is warranted.
