Subject: 0223-EX-CN-2020 pre-coordination data request

---

Message:

Saab has started the frequency coordination process with the FAA within their FCR system. We have received the following tracking numbers: TRK 200203, TRK 200204 and TRK 200205. We are working with our colleagues in Sweden to gather the spectrum data requested by the FAA and will submit it ASAP. Therefore, Saab is requesting an extension to allow us to work with Sweden and the FAA to complete this frequency coordination request.

Thanks for your consideration.
