Subject: Request for Info - File # 0982-EX-ST-2021

Message:

You have entered 2200-2290 MHz and 4400-4490 MHz into the STA form, yet your exhibit requests the discrete frequencies 2280 MHz and 4410 MHz. This is likely to get rejected because the federal agencies almost certainly will not approve those entire bands, especially 2200-2290 MHz. You should amend the application to list the discrete frequencies instead of bands. The agencies will not pick a frequency in those bands for you.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of June 15, 2021 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
