

This STA Application, number 0696-EX-ST-2015, is for extension of STA 0488-EX-ST-2013. This has been done because the launch date for ORS-4, and thus the operating start date for EDSN, has slipped; currently it is set for October 29, 2015.

Therefore the operating period for this STA is requested for 10/29/2015 to 4/16/2016. All other aspects of the STA would be unchanged from those of 0488-EX-ST-2013.
