**Attachments:** PhoneSat\_SpaceCap.xxx; ATT00001.htm

Hi Douglas,

1. Is this application related to 0957-EX-ST-2013?

This is a separate project with the same organization.

2. What is the name of the satellite?

PhoneSat-v2.5 is the official name of the satellite.

3. The IARU letter is dated December 30, 2012 and mentions a launch date of July 2013. Explain, and provide the projected launch date.

This launch has unfortunately been delayed multiple times. The latest projected launch date is 2/11/2014.

4. Submit an Orbital Debris Assessment Report (ODAR).

ODAR has been attached to the application as an exhibit.

5. The FCC's International Bureau requires the submission of SpaceCap

Attached to this email.

Thanks and let me know if there are any other questions.

Best regards,

Justin
