"  
AMENDMENT  
255 PLO2  
"

Hi Huie. I hope you remember us. We talked on the phone a few weeks ago. I finally got my things in order here in PA. I wish to have the application ammended and changed. My case# 0007284680 and also I have the following info: 255-expl2002 , frn=0007860836 tin = x00587082. We had discussed these frequencies... 151.505 , 151.625 , 158.400 , 464.5 , 464.55 , 469.5 all up to 35w. Please let me know what else I must do for this. I can also change the name on the Application to an Agency to waive the fees. I will put it under My name, Armstrong County Communications. Emergency Communications Unit. We will be doing work for all county departments, including fire, ems, and tactical. As well as Local and County Police. As we had discussed, with permission from each agency's frequency coordinator, My group will not need any special licenses. We will operate under county freqs. I will however use these above listed frequencies to do majority of testing, that way I can save time, and operate tests while departments are using their own freqs. And I will not interfere with their everyday procedures as minimal as possible. Ok Sir, I hope this can do it for us. Let me know what you think I need to go from here or if you can handle the rest from your end. Thankyou so much, You've been a great help.
