Experimental STA Request
October 13, 2000
File No. 0485 – EX – ST - 2000

Exhibit 3 **Operational and Geographic Information**

This request seeks a special temporary authorization to evaluate ultra wideband (“UWB”) technology:

Date: 11/05/2000 through 11/12/2000	Time: 7AM-7PM local time	Location: 1410 Springhill Road Suite 400 Mclean, VA 22102
	NAD-27	Latitude 38:55:58.451N
	NAD-27	Longitude 77:14:1.360W

Note: According to the FCC TOWAIR database, the nearest landing area to 1410 Springhill Road, Mclean, VA 22102 is Pentagon AHP in Washington, DC, which is 10.3 miles away.

Purpose: This authority will permit the operation of ultra-wideband laboratory test equipment for the purpose of evaluating the functionality of the UWB technology being developed by Time Domain Corporation.

Number of units: 4

Antenna gain: nominally 0 dB

Radiated power: less than – 71.25 dBW/MHz per device

Note: The radiated emissions level will not exceed the limits that would apply to an “unintentional” radiator under the general Part 15 limits set forth in Section 15.109 of the Commission’s Rules.

Public interest showing:

The Commission has heretofore found it to be in the public interest to explore the development of ultra-wideband technology. *See Notice of Inquiry* in ET Docket 98-153 released September 1, 1998 and *Notice of Proposed Rulemaking*, released May 11, 2000.

The purpose of the operations to be conducted under this requested authority will be to evaluate UWB as a potential technology in support of products that our company is considering developing. We realize that U.S. regulations at the time of this request have not been adopted by the Commission and that the Commission may not adopt regulations for UWB or may adopt regulations that are significantly different from the regulations proposed in the May 11 *Notice of Proposed Rulemaking* and that the regulations may affect any products that we design.
