Subject: Request for Info - File # 0391-EX-ST-2018

Message:

Hi Doug,

>What part of 47C.F.R.§5.3 does this experiment qualify under?

We believe the following applies:

§5.3 Scope of service.

Stations operating in the Experimental Radio Service will be permitted to conduct the following type of operations:

(j) Development of radio technique, equipment, operational data or engineering data, including field or factory testing or calibration of equipment, related to an existing or proposed radio service.

The purpose of the STA is to provide Verizon the ability to enable the Verizon Digital Kiosk in order to gather operational data in the field in order to optimize the hardware and techniques necessary to create a communications network of kiosks in order to provide municipal outdoor WiFi service.

Thanks!

Alvin

You state that this experiment is to provide WiFi service. The experimental rules are not to establish a service. What part of 47C.F.R.§5.3 does this experiment qualify under?

The items indicated above must be submitted before processing can continue on the above referenced application.

Failure to provide the requested information within 30 days of 03/08/2018 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
