Subject: Additional Information Request

Message:

Does your engineering effort require you to test beyond your expiration date of 07/01/2019? If yes, then the best course of action is to submit a withdrawal letter and file for a renewal immediately. Modification request is generally used to add additional location, but it doesn't change the expiration date. You can file for modification after your renewal. Please inform me how you want to proceed.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of May 24, 2019 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
