Subject: Additional Information Request

---

Message:

At the time I filed, my thinking was that we wanted to get the new location approved as soon as possible, which I thought would be done prior to the renewal date. Once the new location was added to the license, I would then renew the license for another 2 years. Can we accomplish this multi-step process with my thinking or must we do as you suggest, by submitting a withdrawal letter, then immediately file for license renewal and then filing for the license modification? Thank you for your consideration and I look forward to your response.
