Subject: FCC file number 0152-EX-PL-2010

Message:

Mr. Jones,

The following items are required to process the experimental licensing application, shown below:

- 1.) Please submit the required fee for your application.
- 2.) Please provide the correct latitude and longitude.
- 3.) The number of equipments on your application is greater than 50 units and since this is the license using for experiment only, please submit a justification letter for the use of these equipments.
- 4.) Submit an exhibit describing the purpose of this experiment, and if this authorization is to be used for fulfilling the requirements of a U.S. government contract, then include the name of the contracting agency, the contract number in the description and the point-of-contact; name and phone number.
- 5.) Prior coordinate the frequency bands 1435-1525 MHz, 2310-2320 MHz and 2345-2390 MHz with the Aerospace and Flight Test Radio Coordinating Council.
- 6.) Please prior coordinate the use of the frequency band 1215-1390 MHz with the Eastern Service Area (ESA) FAA Regional Office. Please obtain the NGT number(s) from the FAA Regional Office at the completion of the coordination and report it in your response to this correspondence. Please report the parameter below in your coordination with the FAA Regional Office:
 - Peak envelope power (PEP);
 - Type of antenna;
 - Transmit antenna gain;
 - Elevation above sea level of the antenna site;
 - Height above ground of the focal point of the antenna;
 - Antenna polarization;
 - The azimuth that the antenna is pointed or appropriate designator to indicate whether the antenna is rotating, non-directional, etc.;
 - Pulse repetition rate (PRR) that the equipment is capable of operating on to include PRR stagger sequences if appropriate, whether the PRR is adjustable and what PRR's the equipment can accept, and any other information that would be helpful in understanding the pulse characteristics of the equipment;
 - Pulse width;
 - Equipment nomenclatures;
 - Whether the equipment is capable of blanking transmissions in certain azimuths and any limitations with respect to blanking;
 - Radius of operations if appropriate;
 - Detailed description of the proposed operation to include any technical parameters that will be altered during operations.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of April 14, 2010 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.

DO NOT Reply to this email by using the 'Reply' button. In order for your response to be processed expeditiously, you must upload your response via the Internet at <https://fjallfoss.fcc.gov/oetcf/els/index.cfm> by clicking on the "Reply to Correspondence" hyperlink.
