

**Service:** When operating, the service will provide secure managed access of wireless devices to the existing commercial networks of licensed CMRS operators (the “Macro Network”) in a defined geographic area, within a law enforcement and/or public safety agency facility, to stop the unlawful use of contraband devices by inmate/offenders housed in a correctional facility (prison, jail, detention center, etc.). The C5 system operates within the “call set-up” layer of the wireless infrastructure to authenticate permitted devices for completion of the “calls” (voice, text, SMS or data), by the Macro Networks, while capturing and holding unauthorized devices at “call set-up” / authentication and disallowing the completion of the calls to the Macro Network.

**Scope of Spectrum Usage Rights:** The spectrum usage rights will be utilized by Lessee as a Private Mobile Radio Service (“PMRS”) to manage access to the Commercial Mobile Radio Service (“CMRS”) within the scope of the spectrum usage rights as defined herein. Lessee shall operate the leased spectrum as a PMRS operator in compliance with the communication laws or any other applicable law as if it is solely responsible for such compliance.
