Subject: Request for Info - STA File #1549-EX-ST-2016

---

Message:

Regarding the STA filed for this location: we are in discussions with the state of Indiana to secure a long term contract; however, the contract will not include a fixed location for managed access, but an agreement for a series of mobile assessments. Once the contract is executed, we will approach the carriers for long-term agreements.

We may need some assistance during that process as it is unclear that the carriers will execute a de facto agreement without an STA for a mobile solution. Once we reach that point, we expect to include the FCC in our discussions.
