Hello Charlie,

Thank you very much for helping us getting the experimental License for TDD technology testing. As you asked, the following is the information I would like to amend our application (0023-EX-~~PL~~-2001) with:

Power required: 5 or 10 MW, (Should give us about 5 meter radius)

Frequency: 2025 - 2110

Location: Boca Raton from Feb 1 - Mar 16 (in our lab)
Las Vegas from Mar 18 - Mar 23. (in the exhibition Hall)

Best Regards
Avtar Singh
