Dear FCC,

We are granted the nationwide conditional experimental license (Call Sign WA2XDJ & File Number 0276-EX-RR-2000) for the past several years. Nature of our industry where Technical wireless demos all over the United States are common, continuation of this experimental license is very crucial. We participate in various trade shows to exhibit our up to date cutting edge wireless technologies along with many other vendors. Having nationwide experimental license helps us in continuing with that. As Siemens company we work with the trade show organizers to ensure that we remain within the guidelines of the conditions specified in the grant of the license.

Siemens is grateful for your continuing support in this matter and we appreciate your help.

Sincerely,
Avtar Singh
