

Narrative re Project for Government Contract

STA File No. 0294-EX-ST-2018

Sierra Nevada Corp.

STA File No. 0294-EX-ST-2018 has been filed in order to obtain authorized frequencies for the Sierra Nevada Corp. to perform ground testing of VHF/UHF radio links for an Army fixed-wing aircraft. This testing will occur at a site near Hagerstown, Maryland.

Sierra Nevada is performing this testing pursuant to a contract between Sierra Nevada and the U.S. Army's Program Management Sensors-Aerial Intelligence (PM SAI) office. All of the frequencies and emission designators proposed in the STA application are for testing under this contract. The contract information and contact information is as follows:
