Subject: Request for Info - File #0359-EX-RR-2016

Message:

Dear Mr. Young

The newer design works using a frequency band of 92.5-95.5 GHz vice a single frequency of 94 GHz.

I tried to update the renewal request with the additional info above, before proceeding with payment, but when hitting the 'Proceed' button after updating the change block, kept receiving an error message that request already submitted.

Also, I can't figure out how to get back to the windows to proceed with making the required payment.

Please include Cindy.Mahan@sncorp.com on any additional emails on this renewal.

Kind Regards
Cindy Mahan
