To operate in the 2200-2290MHz Telemetry Band near Green Valley, Arizona.

ATTN.: Microwave Branch

Sierra Nevada Corporation hereby requests Special Temporary Authority (STA) to operate within the 2200-2290MHz telemetry bands pursuant to Section 21.25 of the Commission's Rules. Sierra Nevada Corporation requests that the Commission grant it temporary authority to operate on the frequency centered at 2270MHz with a 20MHz bandwidth from June 21, 2021 through August 31, 2021 with intermittent usage. As explained below, Sierra Nevada Corporation is filing an STA request to demonstrate high altitude to ground MESH network testing over Southern Arizona. Sierra Nevada Corporation submits that there are extraordinary circumstances warranting a grant of the STA request.

Sierra Nevada Corporation seeks to conduct high altitude to ground MESH network testing on an intermittent basis. Due to the extreme frequency congestion in the area, Sierra Nevada Corporation requests the use of these channels.

Sierra Nevada Corporation certifies that the operation of the requested channel for the purposes specified herein will not cause interference to any established stations.

Grant of the instant request for STA for the 2.2GHz Bands would serve the public interest by enabling Sierra Nevada Corporation to conduct high altitude MESH networking tests over Southern Arizona.

In accordance with Section 74.633 of the Commission's Rules, the following is provided:
